I am Edson Sánchez, a Full Stack Developer with an extensive track record. I've successfully tackled challenging projects, such as integrating a real-time KPI system for an airport, designing a scalable and adaptable returns system for over 2,000 companies with diverse business models, and I have also been involved in various AI-powered applications. My passion for programming constantly drives me, and my commitment motivates me towards team success, delivering agile and effective solutions.

## EXPERIENCE

**Fina Partner, Sr Full Stack Developer** — June 2024 - Present.

- Developed 100% of Fina's main landing page, applying SEO techniques that resulted in a 300% increase in visitor traffic and retention.
- Implemented a highly adaptable returns system for the needs of over 2,000 clients.

**Tech Stack:** MEAN, Angular, Node.js, Express, MongoDB, Bootstrap, TS, HTML, CSS, JS.

**Freelancer, Sr Full Stack Developer** — December 2023 - June 2024.

- Developed 80% of an intuitive and functional dashboard for a lottery using Next.js and React, focused on visualizing key KPIs such as prizes, sales, and returns.
- Created 3 fundamental modules in a Vue.js Nuxt application, steering it toward a Content Management System (CMS).
- Implemented 100% of the integration between a website and a fiscal printer, ensuring the correct issuance of sales receipts and compliance with fiscal regulations.

**Tech Stack:** Next, React, Nuxt, Vue.js, Material UI, Tailwind, Docker, TS, HTML, CSS, JS.

**Imagine Apps, Ssr Front End Developer** — June 2023 - December 2023.

- Led the complete refactoring of the Frontend in Angular, modernizing the architecture and significantly improving site performance and maintainability.
- Successfully optimized 100% of an Angular application's deployment by utilizing Docker.

**Tech Stack:** Angular, Redux, NgRx, RxJS, Docker, Material UI, TS, HTML, CSS, JS.

**SEO Contenidos, Full Stack Developer** — January 2022 – June 2023.

- Created an integrated news plugin, connecting it to a Flask endpoint to consume the OpenAI and Stable Diffusion APIs, generating AI-optimized textual and visual content.
- Configured the connection between the WordPress API and a DMZ via Windows Server and Laragon, modifying phpMyAdmin configuration and internal files to enable secure access from a local corporate network.
- Developed an AI-powered tool in Angular for generating Instagram bios.

**Tech Stack:** Angular, Laravel, Flask, SQL, Bootstrap, Wordpress, TS, HTML, CSS, JS, Python, PHP.

**Upwork, Full Stack Developer** — Octubre 2022 - Febrero 2023.

- Actively collaborated on the development of an Angular software that implemented real-time KPIs for the operational management and control of an airport.
- Comprehensively resolved login errors across various browsers by implementing robust state management with Redux in the React application.
- Participated in creating a billing system using the WeasyPrint library and a Django Back End for data storage.

**Tech Stack:** Angular, React, Redux, Django, Flask, Bootstrap, TS, HTML, CSS, JS, Python.

## SKILLS

**Programming Languages:** JavaScript, TypeScript, Python, PHP, SQL.

**Frontend Frameworks:** Angular, React, Vue, Ionic, Next, Nuxt, Tailwind, Bootstrap, Material UI.

**Backend Frameworks:** Node.js, Express, Flask, Django, Laravel.

**Databases:** MongoDB, MySQL, MariaDB PostgreSQL.

**Tools:** Git, GitHub, Bitbucket, GitLab, Postman, Jira, Trello, Figma, Slack, AI.

**Agile methodologies:** Scrum.

**Languages:** English, Spanish.

## EDUCATION

**Instituto Universitario de Tecnología Industrial (IUTI)** – Táchira, Venezuela. TSU Tecnología Automotriz.
